Supabase
CSS
HTML

EDUCATION

MSc in Software Design

IT University of
Copenhagen | 2026
Top marks on thesis (12) ·
Weighted average: 9.94 ·
Specializations: Cybersecurity
& Web Architecture

BA in Philosophy

University of Copenhagen |
2020

Exchange

Sorbonne University, Paris |
2017–2018

LANGUAGES

Danish: Native
English: Fluent
French: B1

PROFILE

Recent graduate with an MSc in Software Design from IT University of Copenhagen, with specializations in cybersecurity and web architecture/interaction design. My thesis - in Human-Computer Interaction - was a RAG-based chatbot combining custom chunking, semantic and full-text search, and generative AI. It received top marks.

EXPERIENCE

- 2023/26** MSc in Software Design, IT University of Copenhagen
- 2023** Personal care assistant, Gladsaxe Municipality
- 2021/23** Coordinator, GoTutor (Egmont)
- 2020/21** SIMAC + six-month Maersk contract, container vessel (South America & Africa)
- 2019** Six-month journey across Asia (Vietnam, China, Taiwan)
- 2019** Demolition worker, Søndergaard A/S
- 2015/20** BA in Philosophy, University of Copenhagen
- Exchange at Sorbonne, Paris (2017-18)
- 2014/15** Language studies and café work, Paris
- 2014** High school diploma (math/science), Aurehøj Gymnasium

PORTFOLIO

Haccman - Master's Thesis (HCI)

Top marks

- Jailbreaking game with a RAG-based hospital-assistant chatbot
- Custom chunking, embeddings with metadata, semantic + full-text retrieval
- React/JavaScript, CSS, HTML · Supabase (PostgreSQL), Edge Functions
- Live: hacc-man.com
- GitHub: github.com/emilHojgaard/HaccmanEA

Hacky (Own project)

Vibecoded successor to Haccman - new theme, same RAG backend

- Rebuilt with a new visual theme; same RAG database and retrieval methods
- Planned extensions and modifications in progress
- Intended to get its own domain and potentially become an app
- GitHub: github.com/emilHojgaard/haccman-2.0

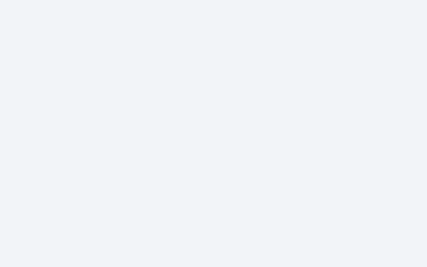

Artist Website v1 & v2 (Own project)

Vibecoded redesign - v2 is the live version

- Portfolio site for artist Escarleth Romo Pozo
- Live: escarlethromopozo.com
- GitHub (v1): github.com/emilHojgaard/pozo-productions
- GitHub (v2): github.com/emilHojgaard/PozoProductions2.0

Safe Space (Course project)

- Moderated chat platform for students facing mental health challenges
- React/JavaScript, CSS, HTML · Back4App backend
- GitHub: github.com/emilHojgaard/safespace-react-2024

Hat Webshop (Course project)

· Frontend: React/TypeScript, Tailwind CSS · Backend:
RESTful API in JavaScript

GitHub: github.com/antonskoumoller/hat-project-2
